The Hiring Manager
Lumen Analytics Pvt. Ltd.
Prahladnagar, Ahmedabad - 380015

Subject: Application for the post of Junior Data Analyst

Dear Hiring Manager,

I am writing to apply for the position of Junior Data Analyst at Lumen Analytics, which I came across on your careers page. I am currently completing a Data Analytics diploma at TOPS Technologies in Ahmedabad, and I am looking to begin my career in a role where I can work with real data and keep learning.

Through my coursework, I have built a good working base in Python, including object-oriented programming and handling data stored in JSON and CSV files. I have also completed an Advanced Excel course and have worked with NumPy for numerical data. I hold a B.Sc. from Dr. Bhimrao Ambedkar University, Agra, which gave me a solid grounding in analytical thinking and structured problem solving.

I do not yet have formal work experience, but I learn quickly, pay attention to detail, and enjoy turning raw figures into clear and useful findings. I would bring the same sincerity and discipline to your team that I bring to my studies.

I have attached my resume for your reference and would be grateful for an opportunity to discuss how I can contribute to Lumen Analytics. Thank you for your time and consideration.

Yours sincerely,
Prachi Tomar

Subject: Letter of Recommendation for Ms. Neha Patel

It is a pleasure to recommend Ms. Neha Patel, who worked with me as a Data Analyst Intern in our reporting team from January to June 2026.

During her internship, Neha handled the weekly sales reports independently, cleaned large Excel datasets, and prepared summaries that our managers used directly in their meetings. Her work was accurate, well organised and always delivered on time. She was also quick to ask questions when something was unclear and equally quick to apply the feedback she received.

Beyond her technical ability, Neha is dependable, polite and a good team member. Colleagues across the department enjoyed working with her, and she handled pressure calmly during our quarter-end deadlines.

I am confident that she will be a valuable addition to any organisation and I recommend her without reservation. Please feel free to contact me if you need any further information.

Yours sincerely,
Rahul Desai

EXPERIENCE CERTIFICATE

To Whom It May Concern

This is to certify that **Ms. Neha Patel** was employed with Lumen Analytics Pvt. Ltd. as a **Data Analyst Intern** in the Reporting Department from **2 January 2026 to 30 June 2026**.

During this period, she was responsible for preparing weekly sales reports, cleaning and organising datasets in Excel, and assisting senior analysts with monthly performance summaries. Her conduct and performance throughout her tenure were found to be satisfactory and professional.

She is leaving the organisation at the end of her internship of her own accord. We thank her for her contribution and wish her all the best for her future career.

Subject: Letter of interest - Data Analyst opportunities

Dear Sir or Madam,

I am writing to express my interest in joining BrightPath Data Solutions as a Data Analyst or Data Analyst Intern. I have followed the company's work in business analytics and was impressed by the way your team uses data to support client decisions.

I am currently pursuing a Data Analytics diploma at TOPS Technologies, Ahmedabad. My skills include Python, object-oriented programming, working with JSON and CSV data, Advanced Excel and NumPy. I am a careful and consistent learner, and I am keen to apply what I have learned in a professional setting.

I understand that you may not have an opening at this moment, but I would be grateful if you could keep my resume on file and consider me for any suitable vacancy in the future. I would also be happy to meet or speak with you at your convenience.

Thank you for your time and consideration.

Yours faithfully,
